Connecting, simplifying and enhancing the
assessment process online

held on 12th November 2020

Trainer: Cath Stuart

Duration: 60 minutes

Language: British English

Summary:

In this session, we will look at how Test Hub enables a range of educational providers to manage learner data in one place, and track their achievements. We will also look at how teachers are able to target learning to skills gaps for classes and individuals. We'll consider current and future development plans, including our 'direct to learner' path which empowers learners to prepare for high-stakes exams at their chosen pace.
