**Interview anxiety - how to best prepare for online  
interviews in English**

**held on 18th November 2020**

**Trainer: Elizabeth Moore**

**Duration: 60 minutes**

**Language: British English**

**Summary:**

With the pandemic continuing to limit face-to-face interactions, many of our adult (and new graduate) students will be facing the already stressful interview process online. Interviewing via video conference or submitting a video of themselves as part of the process has already become the new norm. This is daunting for the best of us and potentially doubly-worrying for non-native English speakers. This session will provide practical tips and strategies to support teachers in helping students overcome interview anxiety and better prepare for online job interviews in English.
